

Turkey Tricks

Print two copies of the turkey - one for you, one for your child. Give directions as you colour and decorate your turkey. Have your child follow your directions. Get creative!

For example: Put polkadots on one feather. Draw a beak and colour it orange.

Use concepts such as "first, then" and descriptive words such as "stripes" or "large/big".

Don't peek! Do your turkeys look the same or have your turkey instructions tricked them?

Take turns giving directions. Can your child's turkey directions trick you?!
